

CultureHub LA

What to send now & what to hold

Send by August 11

READY AFTER FINAL VISUAL APPROVAL

1. **Artist-page copy:** attach `artist-page-packet.pdf`, or paste its bio, project statement, and links into the email.
2. **Headshot:** attach `jeffrey-alan-scudder-headshot-3x2-green-laptop.jpg` — the chosen portrait. Offer the animated `.webp` and its still as alternates only if CultureHub asks for a plain headshot.
3. **Superseded:** `jeffrey-alan-scudder-headshot-3x2-animated.webp`. Also attach the GIF and still fallbacks if CultureHub's CMS requirements are unknown. PDF preview uses the smiling still because PDF cannot animate.
4. **Project image:** attach `marketing/campaigns/macneopolitan/gens/program.png` (1536×1024). It carries both works — three MacBook Neos across the front, the six salvaged laptops ringed behind. It replaces the interim `special-sign-live-spatial-3x2.jpg`.
5. **Credits and alt text:** use the exact lines printed beneath each image in the artist-page packet.

Program change — August 9, 2026

The program is now **two works**, billed *Whistlegraph presents: Special Sign* (six salvaged laptops, AC Native, notepat) and *MacNeoPolitan* (three MacBook Neos — indigo, citrus, blush — each played through Menu Band). `ARTIST-PAGE.md` and `EVENT-PAGE.md` were rewritten to match; the `.tex` packets below still carry the older single-work copy and must be regenerated before they are sent.

Never write that AC Native runs on Apple hardware. AC Native is x86_64 UEFI only; *MacNeoPolitan* runs Menu Band, a shipping universal macOS app.

Hold until confirmed

DO NOT SEND AS FINAL YET

- `event-page-packet.pdf` — dates, times, livestream, and final title remain provisional.
- `technical-rider.pdf` — send for the production conversation after CultureHub names its technical contact; the Kalio sixth-channel path must be verified.
- `SCHEDULE.md` — internal working calendar, not a public attachment.

Decisions still open

- Running order of the two works, and the final billing line beneath *Whistlegraph presents*.
- Purchase of the third MacBook Neo (blush). Do not describe its finish in copy until the machine is in hand.
- Jeffrey's approval of the spatial still as the interim project image.
- CultureHub's accepted image formats and whether animated WebP is supported.

- Confirmed public-program dates, times, and whether Menu Band Jam is a separate offering.
- Room, signal, network, projection, streaming, and documentation specifications.
